

Bantry Culture & Creativity 2020

Bantry Historical Society's project for 2020, supported by Creative Ireland Cork County Funding Scheme, consists of fourteen sections. Thirteen of those contain data and images relating to the relevant subject as mentioned in the various headings shown on this Local History section.

This section is an audio section, and will include six separate recordings (videos) which we are delighted to present here.

Three of these videos contain local songs and stories or folklore of the Bantry area, including Whiddy Island. And, as an extra bonus, all the singers are Bantry natives. What's more, we have some songs that were probably never before heard in Bantry (relating to this area), together with one song in the making and news of a further music creation to come!

Following editing, videos will be available later. Do please check back
